The sheer volume of illegal migrants pouring across America's southern border would simply not be possible were it not for the leftist non-governmental organizations (NGOs) that are reportedly [setting up "guerrilla camps"](#) in places like Sasabe, Ariz., to help all the illegals and the drug cartels they are associated with to more easily breach the border and enter the United States illegally.

The below video depicts what these leftists are doing by harboring and supporting illegals as they reach the southern border at Arivaca, Ariz., with the intent of passing through it without detection:

Open borders mean death of the nation

It turns out that there are many different NGOs, many of them far-left, that are aiding and abetting illegal aliens as they trek north through Mexico towards the United States.

"A lot of NGOs are helping Biden open the border to unlimited illegal crossing," said Byron York, chief political correspondent at the *Washington Examiner*. "But none of this could happen without the president's approval."

According to White House Press Secretary Karine Jean-Pierre, the ongoing crisis at America's southern border is "not unusual." A simple fact check refutes this, though, showing that the border crisis right now is the worst it has ever been.

From day one, the Biden regime has sought to undermine and undo everything former President Trump did to try to seal up the southern border and restore law and order to the country.

The latest data shows that in December, Customs and Border Patrol (CBP) recorded 302,000 encounters with illegal migrants just in December 2023. Since October 1 of last year, CBP recorded 785,000 encounters with illegals at the southern border.

"It appears Democrats might be funneling taxpayer funds into radical leftist groups, which are reportedly assisting cartels in America's invasion," [speculated Zero Hedge](#).

In the comments, someone wrote that none of this is surprising when considering the lawlessness that has taken over America right in the belly of the beast known as Washington, D.C.

"The thing is, the little helpers in D.C. and elsewhere assisting in the invasion all think they will be promoted to lofty positions of power," wrote another. "When their usefulness ends, they will find out about the communism they forgot to study in school (because it wasn't taught)."

Another asked why individual states such as Arizona are failing to uphold their own state-level immigration laws, despite what the traitors in D.C. are doing.

"I believe aiding and abetting drug cartels to import illegal immigrants is a crime even in Arizona," this person wrote.

"With all his faults, anyone who still thinks that America's survival does not depend on electing Trump is completely delusional," expressed another. "At this rate, the country will be lucky to make it through 2024 to the election date."

"Kiss your country goodbye: it's finished," wrote someone else.

Has it occurred to anyone to release crocs or alligators on mass into the river system, they'd have second thoughts about crossing don't you think?
